Skills

- **Languages**: C, C++, Python.
- **Frameworks & Libraries**: HTML, CSS, NumPy, Panda.
- **Tools & Platforms**: Google Colab, Jupyter Notebook.
- **Soft Skills**: Time Management, Leadership, Problem-Solving, Adaptability, Quick Learner.

Projects

Insight Mall – AI Virtual Shopping Mall Guide | Github Feb' 25 – May' 25

- Developed an AI-powered virtual shopping platform, featuring smart product discovery and interactive assistance driven by a custom Gemini 2.0-based conversational chatbot.
- Designed a modern, responsive user interface utilizing React, Next.js, and Tailwind CSS with the Shadcn UI library, incorporating theme switching and highly intuitive navigation for optimal UX.
- Integrated a scalable Product API to manage product data and deployed the entire solution on Vercel, ensuring fast performance and a seamless, production-grade user experience.
- Promoted sustainable digital shopping by developing features aligned with UN SDG 12 (Responsible Consumption), focusing on ethical product showcasing and informed purchase decisions.

Tech stack: Gemini 2.0, React, Next.js, Tailwind CSS, Shadcn UI, Product API, Vercel, UN SDG 12.

Antiquity Exchange – Online Auction Platform | Github Aug' 23 – Dec' 23

- Engineered Antiquity Exchange, an end-to-end auction platform integrating real-time bidding logic and high-concurrency marketplace features to facilitate vintage item sales.
- Implemented core marketplace functionality, including robust user authentication, dynamic product listings, a real-time bidding engine, and a secure end-to-end transaction flow.
- Designed a responsive and user-friendly UI to maximize accessibility and improve auction participation and user engagement across devices.
- Optimized the bidding system to deliver near real-time updates on current bid amounts and remaining time, enhancing the competitive and dynamic auction experience.

Tech stack: HTML, CSS, Java Scrip, MySQL.

Training

Center of Professional Enhancement – Inter-VLAN Routing June' 25 – Aug' 25

- Engineered Inter-VLAN routing using the Router-on-a-Stick method by configuring Cisco 2811 routers, Cisco 2960 switches, VLANs, trunk links, and sub-interfaces to enable seamless, controlled communication across segmented networks.
- Validated and tested end-to-end network connectivity in Cisco Packet Tracer, applying advanced configurations including IP addressing, DHCP and security policies, resulting in robust network segmentation and controlled inter-department access.

Tech & Tools: Cisco Packet Tracer, VLANs, Turning (802.1Q), Sub-Interfaces, Routing and Switching.

Certificates

- AI & ML for Real-world Problem Solving - Centre for Professional Enhancement.| Certificate Jul' 25
- Build Generative AI Apps and Solutions with No-Code Tools – Infosys.| Certificate Aug' 25
- The Bites & Bytes of Computer Networking – Coursera. |Certificate Dec' 24
- Machine Learning and Image Processing – Thingqbator.|Certificate Aug' 25

ACHIEVMENTS

- Attended an AI and Machine Learning Workshop at CSIR, Chandigarh, gaining foundational understanding of modern deep learning and data science methodologies. Oct' 25
- Attained 5+ Professional Certifications on Coursera, demonstrating commitment to continuous skill development. Mar' 25
- Secured 10th Place out of 300+ teams in the Echo Hackathon. Feb' 24

Education

Lovely Professional University *Punjab, India*
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.59 *Aug' 23 – present*
Sri Chaitana Junior College *Vizag, Andhra Pradesh*
Intermediate; Percentage: 94.2% *June' 22 – May' 23*
Ravindra Bharathi School *Vizag, Andhra Pradesh*
Matriculation; CGPA: 98.0 *June' 20 – Apr' 21*
